

SUNPOWER SOLAR FOR YOUR EMPLOYEES

The SunPower Employee Solar Program enables you to offer the planet's most powerful solar™ to your members at preferred pricing.

Through this program, SunPower will educate your employees about financial and environmental benefits of going solar and offer an exclusive solar rebate. This program rebate combined with federal, state and local rebates could save your employees up to 50% off the total cost of a SunPower system.

BENEFITS

1. Education and informational sessions including webinars, onsite presentations and program flyers to increase awareness and provide employees with a deeper understanding of solar.
2. Custom website for employees to learn more and sign up for a free home evaluation.
3. A unique offering to enhance your employee benefits package, at no cost to you.
4. A welcome addition to corporate sustainability initiatives to help employees go green at home.

Contact us today and take the first step toward helping your employees save money and the planet with the Employee Solar Program from SunPower.

The SunPower Employee Solar Program: Special savings not available to everyone under the sun.

Employee Experience

1 Learn

Education and informational sessions provided to employees.

- Email
- Intranet
- Educational webinars
- On-site events

2 Sign-up

Employees register for a free solar evaluation via your custom website.

3 Evaluate

A certified, local SunPower dealer conducts a no-obligation solar evaluation.

4 Install

Homeowner signs contract and installation process begins. Employees sign and submit the SunPower rebate application and the rebate check is sent directly to them.

SunPower. The number one choice of homeowners.

With roots in Silicon Valley and over a quarter-century of experience dedicated to solar, world-leading SunPower technology powers tens of thousands of residential systems across three continents. Here are just a few reasons why homeowners have chosen SunPower for their energy needs.

THE PLANET'S MOST POWERFUL SOLAR™

- Uses less roof space and virtually eliminates your electricity bill.

SUNPOWER SIGNATURE™ BLACK DESIGN

- Elegant, non-gridline design blends harmoniously into the roof of any home.

PEACE OF MIND

- Best in class network of dealers and industry leading warranty provide peace of mind for years to come.
